

Construction Industry Practice

Client Tools and Resources: Construction Resource Guides

CHUBB®

The Chubb Construction Resource Guides are a series of guides with information relating to areas that impact those engaged in the day to day construction operations resulting from safety related activities. These guides are published periodically, each containing awareness information and recognized practices intended to provide you with tools and resources that you can use to help you manage safety and loss in today's construction industry. These training programs are provided as an adjunct to our underwriting process.

Guides currently available are:

- Accident Investigation
- Conflict Resolution
- Crane Management
- Fall Prevention
- How Insurance Works

- Loss Analysis
- Work Zone Safety
- Fleet Management
- Construction Defect
- Water Intrusion and Mold
- Managing Subcontractors
- OSHA Inspections
- Presentation Skills
- Proactive Safety Culture
- Substance Abuse

Chubb has developed an array of tools and resources for you to use in your efforts to create and maintain an effective safety culture, and to reduce accidents and injuries on the job.

We hope you find the information contained in our Chubb Construction Resource Guides helpful and useful and a valued tool for your safety and risk management library.

The Chubb Difference

As a leader in insuring those in the construction industry, the Chubb Construction Practice Group also brings its innovation and critical thinking to safety efforts in the construction industry.

To help you in your efforts in creating and maintaining an effective safety culture – and to help you reduce accidents and injuries on the job – Chubb has developed an array of tools and resources for you to use.

For Additional Information

For more information on any of the topics or material contained in these guides, please contact your Risk Control Consultant.

Chubb. Insured.SM
