Geographical analysis of the Company's revenues

The following table summarizes the total insurance premiums contributed in (thousands Riyals) based on their geographical distribution in the Kingdom and compared with the previous year, knowing that the company has no branch outside of the Kingdom.

Region	Gross Premium Underwritten 2022	Gross Premium Underwritten 2021	Gross Premium Underwritten 2020	Gross Premium Underwritten 2019	Gross Premium Underwritten 2018
Eastern	192,446	187,445	169,965	154,508	139,998
Central	50,465	42,183	48,206	45,572	41,292
Western	60,766	60,954	56,491	58,143	52,683
Total	303,677	290,582	274,663	258,223	233,973

Major variance in actual operating results:

- Net profit before Zakat and income tax for the year 2022 amounted to SAR 13,396 million, compared to SAR 15,317 million for the year 2021, with a decrease of 12.54%.
- The reasons for the decrease in the net profit before Zakat & Tax are due to an increase in General and Administrative Expenses and an increase in Policy Acquisition Costs, a decrease in the Investment income for Policy holder.
- Total shareholders' equity at 31/12/2022 SAR 364,562 thousand compared to SAR 359,864 thousand for the same period of last year with an increase of 1.31%.
- The total comprehensive income for the current period is SAR 4,697 thousand compared to SAR 7,162 thousand for the same period last year, a decrease of 34.42%.
- Certain of the amounts have been reclassified to conform to the presentation in the current year. These changes were made for better presentation of balances and transactions in the Annual financial statements of the Company. The Company asserts that there is no financial impact of these re-classifications on Net Results from Retained Earnings, and Equity.

Description of important plans, decisions, prospects for the company's business and risks

The Board of Directors has approved the business plan for 2022 and accordingly, the business strategy is revisited and updated. The strategy and plan demonstrate a positive outlook for the company, which is aimed at expanding its competitive capabilities in order to grow sustainably.

Chubb Arabia continues to be one of the few companies in Saudi Arabia which have continued to maintain its A3 rating with a stable outlook from Moody's Investor Service, this demonstrates a strong level of strength and stability, which has been built through a focus on a disciplined underwriting philosophy, that will continue to be enriched going forward.

Chubb Arabia is committed to providing insurance solutions to selected brokers and direct customers and will strive to provide unmatched services, whilst maintaining its position as a reliable partner. The key objectives for next year continually strengthen the skill set of its people and expand the business where the Chubb brand can be leveraged alongside, keep a strong, fast-tracked focus on innovation, and operational efficiency, and increase Net Written Premiums. The emphasis is to lay the foundations for the sustained market presence of existing product lines, as well as the development of new and niche lines of the general insurance business in Saudi Arabia.

During the current year, the company has successfully implemented a new Information Technology infrastructure and is progressing with the completion of a new core system which will be implemented in 2023.

The breadth of the new IT structure will provide unprecedented access to information, allowing for greater operational efficiency, improved decision-making, and enhanced collaboration between departments. To further drive progress, Chubb Arabia is also working to deploy an automated distribution system to unlock the full potential of the Small and Medium Enterprise (SME) business segment – a major area of focus moving forward. By leveraging a versatile IT system, Chubb Arabia is working to advance future prospects and secure a long-term competitive edge.

Chubb Arabia views its employees as the greatest asset of the company. As such, significant resources continue to be deployed for employee training and development, with a focus on cultivating a strong culture and environment. From specialized training and employee recognition, employees are being enabled to reach their full potential and excel in their roles.

While the process of adapting to a changing landscape remains a challenge, the company is confident that its expertise, dedication, and innovation will ensure that it can navigate the road ahead and remain a significant player in the Saudi insurance market.

Applied and not applied provisions of Corporate Governance Regulations and reasons:

The Company acknowledges implementation of all articles of Corporate Governance Regulations for companies issued by the Saudi Central Bank and Corporate Governance Regulations of companies issued by Capital Market Authority, except what is stated below:

Item Number	Item text	Reasons for non-application
39	<p>The Company shall pay adequate attention to the training and preparation of the Board members and the Executive Management, and shall develop the necessary programs required for the same, taking the following into account:</p> <p>1) preparing programs for the recently appointed Board members and Executive Management to familiarize them with the progress of the Company's business and activities, particularly the following:</p> <p>a. the strategy and objectives of the Company;</p> <p>b. the financial and operational aspects of the Company's activities;</p> <p>c. the obligations of the Board members and their duties, responsibilities and rights;</p> <p>d. the duties and competencies of the committees of the Board.</p> <p>2) developing the necessary mechanisms for Board members and the Executive Management to continuously enroll in training programmers and courses in order to develop their skills and knowledge in the fields related to the activities of the Company.</p>	<p>Guidance - partially applied to the executive management, as the company has set extensive programs to develop and qualify the executive competencies within the company, and a training program is developed for members of the Board of Directors when needed and work is underway to meet the requirements of the article</p>
41	<p>The Assessment:</p> <p>a) The Board shall develop, based on the proposal of the nomination committee, the necessary mechanisms to annually assess the performance of the Board, its members and committees and the Executive Management using key performance indicators linked to the extent to which the strategic objectives of the Company have been achieved, the quality of the risk management and the efficiency of the internal control systems, among others, provided that weaknesses and strengths shall be identified and a solution shall be proposed for the same in the best interests of the Company.</p> <p>b) The procedures of performance assessment shall be in writing and clearly stated and disclosed to the Board members and parties concerned with the assessment.</p> <p>c) The performance assessment shall entail an assessment of the skills and experiences of the Board, identification of the weaknesses and strengths of the Board and shall attempt to resolve such weaknesses using the available methods, such as nominating competent professional staff able to improve the performance of the Board. The performance assessment shall also entail the assessment of the mechanisms of the Board's activities in general.</p> <p>d) The individual assessment of the Board members shall take into account the extent of effective participation of the member and his/her commitment to performing his/her duties and responsibilities, including attending the Board and its committees' meetings and dedicating adequate time thereof.</p> <p>e) The Board shall carry out the necessary arrangements to obtain an assessment of its performance from a competent third party every three years.</p> <p>f) Non-Executive Directors shall carry out a periodic assessment of the performance of the chairman of the Board after getting the opinions of the Executive Directors, without the presence of the chairman of the Board in the discussion on this matter, provided that weaknesses and strengths shall be identified and a solution shall be proposed for the same in the best interests of the Company.</p>	<p>Guidance - The Board of Directors has relied on internal evaluation methods so far and there is no external body that carries out the evaluation. It is expected that a mechanism for evaluation will be developed by an external body to evaluate the Board every three years during the next year.</p>
87	<p>Social Responsibility:</p> <p>The Ordinary General Assembly, based on the Board recommendation, shall establish a policy that guarantees a balance between its objectives and those of the community for purposes of developing the social and economic conditions of the community.</p>	<p>Guidance - work is underway on preparing the policy, as it is expected to be approved by the General Assembly during the next year</p>
88	<p>Social Initiatives:</p> <p>The Board shall establish programmers and determine the necessary methods for proposing social initiatives by the Company, which include:</p> <p>1) establishing indicators that link the Company's performance with its social initiatives and comparing it with other companies that engage in similar activities;</p> <p>2) disclosing the objectives of the Company's social responsibility to its employees and raising their awareness and knowledge of social responsibility;</p> <p>3) disclosing plans for achieving social responsibility in the periodical reports on the activities of the Company's; and</p> <p>4) establishing awareness programmers to the community to familiarize them with the Company's social responsibility.</p>	<p>Guidance - despite the company carrying out some social activities in previous periods and on an ongoing basis, a program will be developed and approved by the Board of Directors consistent with the social responsibility policy that will be approved in the future.</p>
95	<p>Formation of a Corporate Governance Committee:</p> <p>If the Board forms a corporate governance committee, it shall assign to it the competences stipulated in Article (94) of these Regulations. Such committee shall oversee any matters relating to the implementation of governance and shall provide the Board with its reports and recommendations at least annually.</p>	<p>Guidance - The company does not currently see this as a necessity to form it</p>

Actions taken by the Board to inform its Members - especially Non-executives, of the shareholders' proposals and their remarks about the company and its performance:

The Company's Articles of Association ensure the basis of all shareholders rights in relation to their shares. The Company shall receive all proposals and notes of its shareholders by e-mail, telephone and through the General Assembly. The Board of Directors shall be notified of a summary of such proposals or notes, if any. The Board of Directors Terms of Reference stipulates that the board members are required to attend the General Assembly's meetings to hear and discuss the shareholders proposals, their remarks about the company and its performance. The company did not receive any comments or suggestions from its shareholders during 2022.

Brief Description of Specializations and Assignments of the Committees:

Policy and criteria for setting the remunerations of the Members of Board of Directors and Executive Administration of the company

The minimum limit for the annual remuneration of the Chairman and Members of the Board of Directors is an amount of SAR 120,000 and the maximum limit is an amount of SAR. 500,000, which is paid in compensation for the Board membership and the work. These amounts are inclusive of any additional remuneration paid to eligible members of the Board Committees.

In the event of realization of profits by the company, a rate equivalent to 10% of the remaining net profit may be distributed to the Members of Board of Directors, after deduction of reserves determined by the general assembly pursuant to the provisions of Cooperative Insurance Companies and after distribution of profit to shareholders not less than 5% of paid capital, provided that the entitlement of this benefit shall be commensurate with number of sessions attended by a member, however, every assessment contrary to that shall be invalid.

Each Member of Board including the Chairman, shall be reimbursed value of actual expenses borne by them for attendance of meetings of the Board or the Committee emanating from Board of Directors, including expenses of travel and accommodation.

The maximum remuneration and financial benefits rewarded to Member of the Board shall not exceed an amount of SAR. 500,000.

The maximum limit for the allowances paid to Members for attending the Board and Committees sessions shall be 5,000 for each session, excluding travel and lodging expenses.

Relationship between the rewards granted and policies of remunerations of members of Board of Directors.

Board of Directors rewards based on the implemented remuneration policy. The company confirms that there are no deviations from this policy.

Penalties and constraints imposed on the company

The company received two violations during the year 2022 according to the following data:

Subject and reasons of the violation	Fiscal Year 2022			Fiscal Year 2021

Result of annual review of efficiency of measures of internal controls at the company

Internal control measures have been prepared on sound basis and their efficiency is being

- The Audit Committee of the Board of Directors submits its reports periodically and regularly, identifying areas of weakness and work on developing controls and measures to avoid reoccurrence in the future.
- Departments specializing in internal audit and compliance where annual plans are approved by the Audit Committee submit their reports to the Committee independently that include audit observations and recommended actions to address these comments.
- Revisions of some aspects of internal control are taken periodically by the External Auditors, as well as periodic and unplanned inspections by the Saudi Central Bank.

The Audit Committee has conducted a comprehensive assessment of the effectiveness of internal control procedures for 2020, review results have proven their adequacy.

The committee also conducted a number of reviews to measure the effectiveness of risk management, compliance and corporate governance, and the results confirmed that the procedures applied by the company are well-founded and implemented efficiently and effectively, The committee has reported some concerns issues to the Board of Directors with specific corrective action proposal for the management to implement.

Overall, the Company's Board of Directors found that internal controls are effective and fulfill the required role that ensures no misuses and acknowledges the non-existence of material observations that may affect the company's business.

Audit Committee Recommendation on the need for appointment of an Internal Auditor at the Company:

The Company has an internal audit department and therefore the audit committee does not need to recommend the appointment of an internal auditor.

Recommendations of the Audit Committee, which have a conflict with the Board of Directors' decisions, or which the Board has refused to take regarding the appointment of the Company's auditor, his dismissal, the determination of his fees, the performance evaluation or the appointment of the internal auditor; and the reasons for not taking them.

There was no contradiction between the recommendations of the Audit Committee and the Board's decisions regarding the appointment of the auditors of the Company as they were introduced and submitted to the shareholders to vote.

Details of the company's social contributions:

Chubb Arabia Cooperative Insurance Company has made support for community programs among the priorities and duties that seek to fulfill them and take care of everything that contributes to supporting activities and programs and sponsoring events and events of value and benefit to the individual and society.

The following are some of the examples of Chubb Arabia's engagement on various sectors of the society:

- Student training program, where the company provided training for university students who are about to graduate and summer school students in support of them and the community in order to qualify them within the insurance sector and pay a monthly bonus throughout the training period. The company strives to increase community programs in the coming years.

The company strives to increase community programs in the coming years.

- **14-** Vote on amending the work policy of the Audit Committee (TOR).

The most important risks which are facing the company

The risks faced by the Company and the way these risks are mitigated by management are summarized as below:

Insurance and reinsurance risk management

The risk under an insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract, this risk is random and therefore unpredictable. The principal risk that the Company faces under such contracts is the

occurrence of the insured events and the severity of reported claims. The Company's risk profile is improved by diversification of these risks of losses to a large portfolio of contracts as a diversified portfolio is less likely to be affected by an unexpected event in a single subset.

Underwriting and retention policies, procedures and limits and clear underwriting authorities precisely regulate who is authorized and accountable for concluding insurance and reinsurance contracts and at what conditions. Compliance with these guidelines is regularly checked and developments in the global, regional and local markets are closely observed, reacting where necessary with appropriate measures that are translated without delay into underwriting guidelines if required.

The primary risk control measure in respect of the insurance risk is the transfer of risks to third parties via reinsurance. The reinsurance business ceded is placed on a proportional and non-proportional basis with retention limits varying by lines of business. The placements of reinsurance contracts are diversified so that the Company is not dependent on a single reinsurer or a reinsurance contract.

Reinsurance is used to manage insurance risk. Although the Company has reinsurance arrangements, it does not, however, discharge the Company's liability as primary insurer and thus a credit risk exposure remains with respect to reinsurance ceded to the extent that any reinsurer may be unable to meet its obligations under such reinsurance arrangements. The Company minimizes such credit risk

Frequency and severity of claims

The frequency and severity of claims can be affected by several factors. The Company underwrites mainly property, engineering, motor, casualty, and marine classes. These classes of insurance except for long tail engineering policies are generally regarded as annual insurance contracts where claims are normally intimated and settled within a short time span. This helps to mitigate insurance

(i) Property

Property insurance contracts, with the main peril being fire, accidental damage and other allied perils resulting therefrom, are underwritten either on a replacement value or an indemnity basis with

appropriate values for the interest insured. The cost of rebuilding or repairing the damaged properties and the time taken to reinstate the operations to its pre-loss position in the case of business

interruption are the main factors that influence the level of claims.

In respect of accumulation of the retentions under the property business, this is covered by proportional as well as non-proportional treaties.

(ii) Engineering

The engineering business includes long tail Erection All Risks ("EAR") and Contractor All Risk ("CAR") policies and annual policies for Machinery Break Down ("MBD"), Machinery All Risk, Electronic Data Processing, Deterioration of Stock and Business Interruption in conjunction with MBD. The long tail EAR/CAR policies cover various projects for the whole project period. Selection of the risks and proper underwriting are the criteria for this profitable line of business.

(iii) Motor

For motor insurance contracts, the main elements of risk are claims arising out of insured vehicles as well as damage to third parties' properties. Further, death claims compensation has been made in accordance with the laws as applicable in the Kingdom of Saudi Arabia.

This risk is covered by per occurrence excess of loss treaties that covers involvement of more than one vehicle in an accident.

(iv) Casualty

For casualty class of insurance loss of money, personal accident, workmen's compensation, travel, general third-party liability and professional indemnity are underwritten. The extent of loss or damage

is the main factor that influences the level of claims.

(v) Marine

In marine insurance, the main risk elements are loss or damage to insured cargo and hull due to various mishaps resulting in total or partial loss claims. The extent of the loss or damage is the main factor that influences the level of claims.

Reinsurance arrangements have been made with reinsurers through proportional treaties as well as non-proportional treaties.

The risk is covered through a combination of proportional treaties and non-proportional treaties.**Concentration of insurance risk**

The Company, with the introduction of any one risk definition and strictly following it in the underwriting process, eliminates concentration of risks. Elimination of location limit under the marine proportional treaty and having a third excess of losses ("XOL") layer to protect accumulation on the net retention apply to take care of concentration. On the casualty side, concentration of risk is very minimal and XOL treaty takes care of it amply. The Company does not have any material claims where the amount and timing of payment is not resolved within one year of the statement of financial position date.

Reinsurance risk

Reinsurance is used to manage insurance risk. Although the Company has reinsurance arrangements, it does not, however, discharge the Company's liability as primary insurer and thus a credit risk exposure remains with respect to reinsurance ceded to the extent that any reinsurer may be unable to meet its obligations under such reinsurance arrangements. The Company minimizes such credit risk by entering reinsurance arrangements with reinsurers having good credit ratings, which are reviewed on a regular basis. The creditworthiness of reinsurers is considered on an annual basis by reviewing their financial strength prior to finalization of any contract. Reserve risks are controlled by constantly monitoring the provisions for insurance claims that have been submitted but not yet settled and by amending the provisions, if deemed necessary.

Regulatory framework risk

The operations of the Company are subject to local regulatory requirements in the Kingdom of Saudi Arabia. Such regulations not only prescribe approval and monitoring of activities but also impose certain restrictive provisions e.g. capital adequacy to minimize the risk of default and insolvency on the part of the insurance companies and to enable them to meet unforeseen liabilities as these arise.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. For all classes of financial assets held by the Company, the maximum exposure to credit risk of the Company is the carrying value as disclosed in the statement of financial position.

The following policies and procedures are in place to mitigate the Company's exposure to credit risk:

- The Company only enters into insurance and reinsurance contracts with recognized credit worthy third parties. It is the Company's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivables from insurance and reinsurance contracts are monitored on an ongoing basis in order to reduce the Company's exposure to bad debts.
- The Company seeks to limit credit risk with respect to agents and brokers by setting credit limits for individual agents and brokers and monitoring outstanding receivables.
- The Company's investment portfolio is managed by the investment committee in accordance with the investment policy established by the investment committee.
- The Company, with respect to credit risk arising from other financial assets, is restricted to commercial banks having strong financial positions and credit ratings.
- There are no significant concentrations of credit risk within the Company.

The table below shows the maximum exposure to credit risk components of the statement of financial position:

In SAR	Insurance operations		Shareholders operations	
	2022	2021	2022	2021
Cash and cash equivalents	24,179,107	37,267,250	740,707	148,776,635
Investments held for trading	37,168,786	39,755,154	57,061,125	62,395,524
Investments available for sale	-	-	1,932,078	1,932,078
Premiums and insurance	143,764,682	151,583,164	-	-
Reinsurers' share of outstanding claims	118,827,786	48,128,358	-	-
Other assets	-	-	-	-
Total	323,940,361	276,733,926	59,733,910	213,104,237

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet commitments associated with financial liabilities. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value. Liquidity requirements are monitored on a monthly basis and management ensures that sufficient liquid funds are available to meet any commitments as they arise. A significant amount of fund is invested in time deposits, available for sale and held for trading investments.

Liquidity profile

None of the financial liabilities on the statement of financial position are based on discounted cash flows and are all payable on a basis as set out above.

Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Company is subject to fluctuations in foreign exchange rates in the normal course of its business. The Company did not undertake significant transactions in currencies other than Saudi Riyals and US Dollars, during the year. As the Saudi Riyal is pegged to the US Dollar, balances in US Dollars are not considered to represent significant currency risk.

Commission rate risk

Commission rate risk is the risk that the value or future cash flows of a financial instrument will fluctuate because of changes in market commission rates. Floating rate instruments expose the Company to cash flow commission risk, whereas fixed commission rate instruments expose the Company to fair value interest risk.

The Company is exposed to commission rate risk on certain of its time deposits, term deposits, investments held for trading and investments available for sale. The Company limits commission rate risk by monitoring changes in commission rates.

The following table demonstrates the sensitivity of statement of shareholders comprehensive income to reasonably possible changes in commission rates, with all other variables held constant.

Market price risk

Market price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from commission rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company limits market risk by maintaining a diversified portfolio and by monitoring developments in equity market. The Company does not have significant market risk.

Equity price risk

Equity price risk arises from changes in the fair values of equity investments. Equity price risk is managed by the investment department of the Company. The unquoted equity price risk exposure arises from the Company's investment portfolio.

Capital management

Capital requirements are set and regulated by SAMA. These requirements are put in place to ensure enough solvency margins. Further objectives are set by the Company to maintain healthy capital ratios in order to support its business objectives and maximize shareholders' value.

The Company manages its capital requirements by assessing shortfalls between reported and required capital levels on a regular basis. Adjustments to current capital levels are made in light of changes in market conditions and risk characteristics of the Company's activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue shares. In the opinion of the Board of Directors, the Company has fully complied with the externally imposed capital requirements during the reported financial period.

Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Company's operations either internally within the Company or externally at the Company's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of investment management behavior. Operational risks arise from all of the Company's activities.

The Company's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns for investors. The primary responsibility for the development and implementation of controls over operational risk rests with the Board of Directors. This responsibility encompasses the controls in the following areas:

- Requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- Requirements for the reconciliation and monitoring of transactions;
- Compliance with regulatory and other legal requirements;
- Documentation of controls and procedures;
- Requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- Ethical and business standards; and Risk mitigation policies and procedures.

Accounting Standards

Application of international standards

The Company confirms that, the financial statements have been prepared in accordance with International Accounting Standards and will continue to apply these standards to all financial statements prepared for future financial periods.

The financial statements of the company have been prepared in accordance with International Financial Reporting Standards and have not been prepared in accordance with generally accepted accounting standards in the Kingdom of Saudi Arabia. The Company asserts that there are no substantial differences or financial impact on the financial statements as a result of the Preparation of the financial statements in accordance with International Standards than that in Saudi Accounting Standards.

Subsidiary Companies

The Company does not own any subsidiary.

Shares details and debt tools issued to the subsidiary company

There are no subsidiary companies.

Profit Distribution Policy

The Company's policy to distribute profits does not violate the rules stipulated in the Cooperative Insurance Companies Control Law issued by the Saudi Arabian Monetary Agency and the rules stipulated in the Articles of Association of the Company, which were approved by the constituent Assembly of the Company. Article 44 of the Company's Articles of Association stipulates the policy of distributing shareholders' profits as follows:

- (1) Hold the determined Zakat and income tax
- (2) Hold 20% of the net profit to form a statutory reserve. The Ordinary General Assembly may suspend this reserve when the above-mentioned reserve reaches up to total paid-up capital.
- (3) Based on the proposal of the Board of Directors, a percentage of the net annual profits shall be set aside for the formation of an additional reserve to be allocated for a specific purpose or purposes decided by the General Assembly.
- (4) Then distribution from the rest a first payment to the shareholders at least 5% of the paid-up capital.
- (5) The residual value shall then be distributed to the shareholders as a share of the profits or post it to the retained earnings account.
- (6) Under a resolution of the Board of Directors, may distribute periodic profits deducted from the annual profits limited in paragraph (4) of this Article in accordance with the rules governing this and issued by the competent authorities

Noting that the company did not distribute dividends in 2022 for 2021 based on the shareholders 'vote on the dividend distribution item in the General Assembly held on 31/05/2022

Surplus proposed to be distributed to policy holders for the year 2022

The surplus realized from the insurance operations amounted to 15,444 thousand Saudi riyals, and according to the executive regulations of the cooperative insurance system, an amount of 13,900 thousand Saudi riyals, which represents 90% of the surplus of insurance operations, was transferred to the shareholders' account, to be added to the shareholders 'income list, while the remaining percentage is distributed 10 % Of the surplus, which amounts to 1,544 thousand Saudi riyals for policyholders.

Description of ownership of major shareholders, members of boards of directors, senior executives and their spouse and minor children:

The Company acknowledges non-existence of persons (except members of board of directors, senior executives and their spouses and dependent children) informing the Company of any rights entitled under Article (45) of rules of registration and enrollment issued by Saudi Monetary Authority.
