

Liability Trigger Conversion Insurance

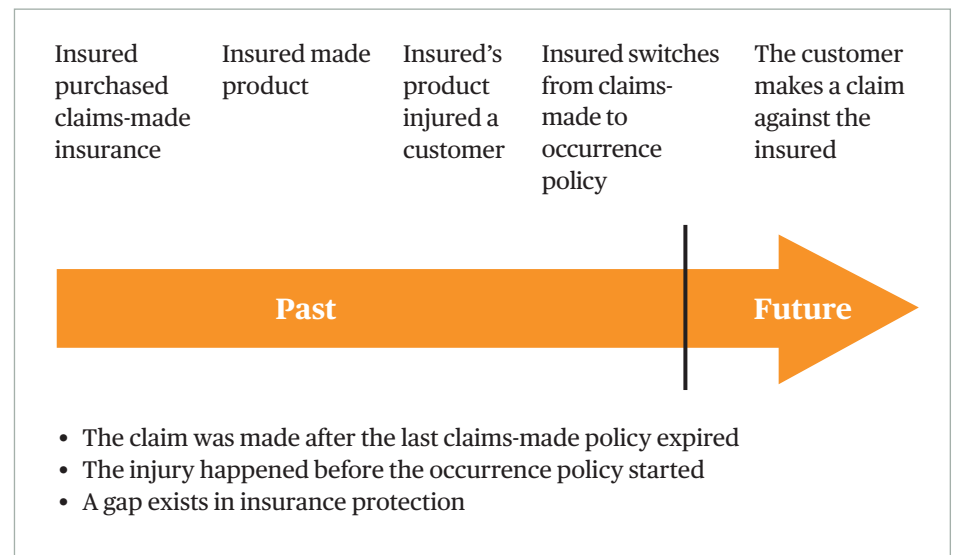

Mergers, acquisitions and business discontinuations are facts of business life - and sources of potential exposures that standard general liability insurance may not address. With **Continuum from ChubbSM** liability insurance solutions, you can help reduce gaps in insurance protection that may occur in the wake of these business transitions.

Who Needs Liability Trigger Conversion Insurance?

Converting from a claims-made or reported occurrence policy to a standard occurrence policy could cause a gap in insurance protection for claims made after that change. You may be able to buy an extended reporting period endorsement from the previous claims-made carrier; however, that option can be costly. But leaving the gap exposed can be even more expensive if you experience a loss.

Liability Trigger Conversion insurance, part of **Continuum from ChubbSM**, may offer you a more cost-effective alternative. Here's an example of how the policy works:

Continuum from ChubbSM...because the past cannot be undone and the future cannot be predicted.

Chubb's Liability Trigger Conversion insurance is designed to help fill in gaps like these. And Continuum solutions offer the following features:

- **A separate liability policy**, which is valuable if the insured's limits of insurance were eroded in the previous claims-made policy and sufficient limits might not be available for an extended reporting period endorsement
- **One aggregate policy limit**, regardless of the length of the claim reporting or injury period
- **Multiple-year injury periods** back to the retroactive date of the claims-made policy and **multiyear future claim reporting periods**
- **Worldwide insurance available**
