## Examples of Success Stories

<b>Investment Advisor</b>	As a major office relocation loomed, the client recognized the need to update their ergonomics program and strategy to ensure a smooth transition for their 3,000-person workforce. To support their team, Chubb Risk Consulting conducted thorough workstation evaluations for 10% of the staff, identifying potential ergonomic issues and recommending tailored solutions. These assessments not only optimized individual workspaces but also helped employees adapt to their new environment comfortably. This proactive approach laid a strong foundation for a successful move and reinforced the company's commitment to a healthy workplace.
<b>Bank/Finance Company</b>	In response to concerns about a potential facade collapse, Chubb Risk Consulting collaborated closely with the client's architect and structural engineering firm to assess the situation thoroughly. Our team conducted comprehensive evaluations and identified key vulnerabilities that could lead to significant structural failures. Armed with this information, Chubb provided targeted loss mitigation recommendations designed to strengthen the facade and prevent potential catastrophic damage. Ultimately, our partnership ensured a safer environment and reinforced the importance of rigorous safety measures in construction projects.
<b>Credit Union</b>	To address safety concerns regarding slip and fall hazards, Chubb Risk Consulting conducted on-site slip resistance testing of the flooring using the advanced XL Tribometer. The thorough assessment highlighted areas where the surface was at risk of causing accidents, allowing Chubb to identify specific maintenance needs. Based on the results, we provided the client with targeted recommendations to enhance the floor's slip resistance through effective cleaning protocols and surface treatments. These measures aimed to reduce the exposure to slip and fall incidents significantly.

## Lower Your Risk Today with Chubb Risk Consulting

Our team of world-class industry professionals is readily available to partner with your business and effectively mitigate any risks you may face. Contact our team below to explore how we can help you manage risks more effectively.
