## SERVICES FOR Business Services Clients

As a business services provider, the ability to serve clients is paramount. Chubb understands the importance of uninterrupted service delivery and provides specialized coverage options designed to empower businesses. Business can confidently continue to service clients, knowing that they have a reliable partner to handle insurance needs.

[Chubb Risk Consulting](#) offers tools, resources, and specialization to provide solution-oriented products and services. We craft pragmatic solutions with our insureds and offer recommendations to help minimize loss potential. Employing a network of nearly 500 global risk engineers

and more than 120 risk specialists, with decades of experience, Chubb’s risk engineers take the time to understand each company to align service strategies with its business needs.

The [Chubb Risk Engineering Center](#) is fully equipped and staffed to deliver loss mitigation training across multiple lines of business and offers courses specifically tailored to address the unique risks faced by clients. Our Center is dedicated to providing advanced and collaborative educational resources, ensuring clients can access the latest tools and knowledge specifically designed to manage their risks effectively.

## Examples of Success Stories

### Manager of Reusable Plastic Crates, Bins, and Pallets

A global company sought a new insurance provider after their insurer exited the business. Chubb's risk consultants played a crucial role by attending a "cattle call" at one of the company's main facilities, conducting a thorough risk engineering survey, and coordinating additional site visits to understand the company's specific exposures. This detailed analysis allowed Chubb to craft a tailored insurance solution, emphasizing the benefits of a unified program. By offering insights into ancillary services like an ergonomics assessment for the worker's compensation program, Chubb demonstrated the value of their risk consulting expertise, ultimately securing a long-term relationship with the client.

## Lower Your Risk Today with Chubb Risk Consulting
