

Chubb Risk Consulting

SERVICES FOR Food Industry Clients

Food companies face a unique and complex set of risks with high competition, low margins, numerous regulations, and consumers who are ever more aware of food safety issues and concerned about the environment. These risks make securing the right solutions from the right insurer critical. Chubb understands this industry and is well positioned to proactively help food companies navigate and thrive in this challenging environment.

[Chubb Risk Consulting](#) offers tools, resources, and recommendations to help minimize loss. We craft pragmatic deliverables for our insureds and offer recommendations to help minimize loss potential. Employing a network of nearly 500 global risk engineers

and more than 120 risk specialists, with decades of experience, Chubb’s risk engineers take the time to understand each company to align service strategies with what the business needs.

The [Chubb Risk Engineering Center](#) is fully equipped and staffed to deliver loss mitigation training across multiple lines of business and offers courses specifically tailored to address the unique risks faced by clients. Additionally, our Risk Engineering Resource Library is dedicated to providing advanced and collaborative educational resources, ensuring clients can access the latest tools and knowledge specifically designed to manage their risks effectively.

Examples of Success Stories

Salad Dressing Manufacturer	A private equity firm, a long-time Chubb client, was looking to acquire a salad dressing manufacturer being spun off from a multi-faceted food company. With our extensive food-specific expertise in risk engineering, underwriting and claims, Chubb was able to show the client that they would be supported by people who understood their business and the risks they face. Food specialists from risk engineering and underwriting visited the client's facilities, conducted extensive risk engineering surveys, carefully assessed the company's exposures, and reviewed its specific insurance coverage needs.
Baked Goods Manufacturer	A client operating industrial bakeries, has actively engaged Chubb Risk Consulting to enhance safety measures across all five locations. As a critical recommendation from the team, a comprehensive Dust Hazard Analysis was performed on select locations, underscoring the client's commitment to maintaining a safe working environment while optimizing operational efficiency.
Confectionary Company	A confectionery company has implemented ergonomic assessments as part of a client initiative to reduce ergonomic claims, utilizing an AI-based solution to enhance workplace efficiency. Additionally, they developed comprehensive sampling plans for industrial hygiene, focusing on noise and airborne chemicals, and conducted sampling to help mitigate potential occupational disease exposures.

Lower Your Risk Today with Chubb Risk Consulting

Our team of world-class industry professionals is readily available to partner with your business and effectively mitigate any risks you may face. Contact our team below to explore how we can help you manage risks more effectively.
