

Chubb Risk Consulting

SERVICES FOR Life Sciences Industry Clients

Chubb’s Life Sciences team offers tools, resources, and specialization to support clients with complex life sciences exposures. Our risk consultants understand the unique challenges within the industry and use their knowledge to tailor solutions for property, workers’ compensation and commercial auto risks.

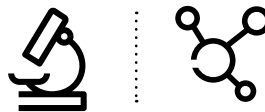

Employing a network of nearly 500 global risk engineers with a core group specially trained in life sciences, [Chubb Risk Consulting](#) takes the time to understand each company to align service strategies with its business needs. They offer support to help clients protect their property, improve safety practices, reduce accidents, and minimize losses.

Clients and brokers have access to the Chubb Risk Consulting Library, which provides information that supports industry and functional best practices, further enhancing clients’ ability to manage and mitigate risks within their organizations.

The [Chubb Risk Engineering Center](#) is fully equipped and staffed to deliver loss mitigation training across multiple lines of business and offers courses specifically tailored to address the unique risks faced by clients. The Center is dedicated to providing advanced and collaborative educational resources, ensuring clients can access the latest tools and knowledge specifically designed to manage their risks effectively.

Services Available to Clients

Services can be provided based on mutually agreed upon program structure and can be delivered on a bundled or direct sold service basis.

Examples of Success Stories

Biologics Manufacturer	Chubb Risk Consulting partnered with the client to identify and mitigate water damage exposure due to unique building construction over cleanrooms.
Compounding Pharmacy	A routine identified deteriorating equipment which was quickly replaced by the client to prevent business interruption.
Medical Device Manufacturer	In collaboration with the client, Chubb Risk Consulting provided customized office and industrial ergonomics training to safety staff across North America, Europe and Asia.
Clinical Laboratory	Chubb Risk Consulting worked with the client's courier fleet manager to refine accident reporting protocols and motor vehicle record evaluation criteria.
Research & Development Facility	Working alongside the client, Chubb Risk Consulting reviewed industrial hygiene contaminant sampling results and worked with the client to create a sampling plan to address possible potent compound overexposure.
Pharmaceutical Manufacturer	Chubb Risk Consulting created a customized, hands-on training program to provide fire sprinkler operation and maintenance education for facilities engineers.
