Making the management of complex risks easier for clients

Chubb's Global Client Executive (GCE) Practice is one of the cornerstones of our strategic account management approach for a select group of large domestic and multinational clients and their brokers.

Our GCEs are experienced leaders who provide our clients and their brokers with a single point of contact from which to access all of Chubb. They ensure high quality, custom-crafted service across a client's programme and provide senior-level accountability across all product lines and services.

Our GCEs work in partnership with our clients and brokers to navigate the complex world of risk. They allocate resources from across our global network to meet a client's specific needs, providing a single doorway to the worldwide capabilities of Chubb.

## Our GCEs unite Chubb and our clients as strategic partners

They make it easy for accounts with worldwide operations, significant retained risk, multiple brokers and specialty services to access the full breadth and depth of Chubb's global capabilities, all through one point of contact. Our clients asked for easy access, our GCEs deliver.

Chubb's Global Client Executive Practice is a demonstration of the exceptional level of service we strive to deliver to our clients and their brokers.

We have GCEs located around the globe in the following Chubb Overseas General regions: United Kingdom, Continental Europe, Asia Pacific and Latin America.
